DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Yu.

The Examiner has carefully considered the amendments and comments made of record but does not find them to be persuasive in overcoming the rejection of record as made in paragraph number 3 of the last Office Action. It is still clear that Yu describes, teaches and suggests all the claimed requirements of the instant claims. Applicant's main argument is drawn to a distinction between measuring the overlay tolerance in Yu and determining a proper overlay tolerance in the application. Looking at the Abstract of the patent, it is clear that a determination of an overlay tolerance is contemplated since the data obtained provides registration pattern parameters used in the algorithm to improve alignment in the individual field areas. This is interpreted to be a determination of acceptable overlay error amounts to improve alignment during processing.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1756

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
